- Brand Partners earn 15% of Transactional Volume on local app redemptions.
- Transactional Volume is the amount Paid 2 Save receives from a Merchant.
- 60% of the Transactional Volume goes into the matrix.

For example: If the Transactional Volume is \$1.75, then 60% (which is \$1.05) would go into the matrix and pay the upline from the Brand Partner that gets paid on the personal volume. Example: If Bob's connector redeems an offer, Bob would get paid differential personal volume and the remaining 60% is credited to Bob's personal volume and be paid upline through the matrix.

Definitions

Brand Associate: Connectors and Premium Connectors are referring customers, not distributors, of Paid 2 Save. They hold no position in the matrix. The first step to becoming a distributor is to purchase a distributor kit for \$59.95. This qualifies you as a Brand Associate and allows you to begin making retail sales and to enroll other Brand Associates. As a Brand Associate, you are qualified to earn commissions from your personal sales only which includes earning a 5% override on your Connectors infinitely deep. You are not qualified to earn matrix income or leadership bonuses. You can retail your way to success all the way through our entire compensation plan. There is a requirement to purchase any product in order to rank advance and earn commissions. To qualify for overrides, retail a Travel Club Package generating \$40.00 per month in commissionable volume, and retail either the Starter Pack or Business Builder pack to 4 different people. If you elect to purchase a Starter Pack or Business Builder Pack, your own purchase will count as one of the 4 sales required to rank advance to the next level.
